

# verge® GRANULES

## Engineered Granule Technology

Introducing Verge granules...a complete line of dust-free chemical and biological carriers that are available in a range of disintegration rates and sizes to best fit your end-use application. Advanced processing techniques and a natural raw material are combined to create innovative granules with unsurpassed function, uniformity, and appearance. Beautifully spherical, your formulated products will look and perform their very best.

**SPHERICITY**  
minimizes dust

**OUTER SHELL**  
resists attrition

**GRANULE**  
20–25% liquid  
hold capacity

**INNER CORE**  
millions of inert  
micro particles
